

**NANO KOREA 2024**

The 22nd International Nanotech Symposium & Exhibition

---

**Dr. Minah Lee**

KIST, Korea

---

Minah Lee is a Principal Research Scientist at Korea Institute of Science & Technology (KIST). Before joining KIST, she completed her PhD in Materials Science and Engineering from KAIST and moved to Stanford University to pursue her postdoctoral research. Her research focuses on tailoring organic materials and interfaces within rechargeable batteries, with the goal of expediting the widespread adoption of sustainable energy technologies.
