

NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

Prof. Shou-Hang Bo

Shanghai Jiao Tong University, China

Dr. Shou-Hang Bo is a full professor and the executive director of Future Battery Research Center at Global Institute of Future Technology, and an adjunct professor at School of Chemistry and Chemical Engineering, Shanghai Jiao Tong University. Dr. Bo obtained his B. S. and Ph. D. degree in Chemistry from Fudan University (2009) and Stony Brook University (2014), respectively. He was a postdoctoral associate at Massachusetts Institute of Technology and Lawrence Berkeley National Laboratory from 2014 to 2017. His research interests include solid-state electrolytes, interfaces and imaging of solid-state batteries. In recognition of his scientific contribution to solid-state batteries, Dr. Bo was selected into the Finalists in Energy for the 2017 World Technology Award, and received the Next-Generation Battery Technology Award in 2020.
