

NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

Prof. Hyunhyub Ko

Ulsan National Institute of Science and Technology,
South Korea

Prof. Hyunhyub Ko is a professor in the School of Energy and Chemical Engineering at Ulsan National Institute of Science and Technology (UNIST). He received his PhD in Materials Science and Engineering from Georgia Institute of Technology in 2008, MS in Materials Science and Engineering from Iowa State University in 2004, MS in Chemical Engineering from Yonsei University in 2001, and BS in Chemical Engineering from Chung-Ang University in 1999. From 2008 to 2010, he served as a postdoctoral fellow in the Department of Electrical Engineering and Computer Sciences at the University of California, Berkeley. His research interests are focused on functional nanomaterials for flexible electronics, sensors, and energy devices.
