

# NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

---

## **Prof. Jihoon Kim**

Chung-Ang University, Republic of Korea

---

Jihoon Kim is a tenure-tracked assistant professor of the School of Integrative Engineering at the Chung-Ang University. Prior to this position, he was a tenure-tracked assistant professor at Yonsei University Mirae Campus for 1.5 years, a research scientist II at Georgia Institute of Technology (GA) for 1 year, a postdoctoral scholar at GA for 5 years, at National Institutes of Health for 2 years and at Institute for Basic science for 1 year. He double-majored both in the Department of Life Science and the Department of Chemistry (Bs.c) and then received his Ph.D. in the Department of Chemistry from the Pohang University of Science and Technology (POSTECH). His recent 5-years representative publications include Nature Communications, Advanced Science, Advanced Functional Materials, and Pharmacological Reviews, which contribute to the emerging fields of immunoengineering and nitric oxide delivery.
