

# NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

---

## **Dr. Arne Schleunitz**

Micro Resist Technology GmbH, Germany

---

Dr. Arne Schleunitz was appointed as the second Managing Director and Chief Technology Officer (CTO) of micro resist technology GmbH in 2016. He is responsible for technical sales and worldwide innovation exploitation. After studying electrical engineering at the Technical University Berlin (Germany) with a focus on microsystems technology and a research visit to the University of Maryland (USA), he received his doctorate from the Karlsruhe Institute of Technology (Germany) on the topic of micro- and nanostructuring using nanoimprint lithography. As a post-doctoral student at the Paul Scherrer Institute (Switzerland), he deepened his process knowledge in micro and nanofabrication before starting his involvement in micro resist technology GmbH in 2012 as head of technology management.
