

NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

Prof. Jiyun Kim

Ulsan National Institute of Science and Technology,
Republic of Korea

Professor Jiyun Kim received both bachelor and doctoral degree in Electrical Engineering at Seoul National University. She did her postdoctoral research in Biophotonics and Nanoengineering Lab, Seoul National University for one year and in National Institute of Health in USA for one and half year. She's working as an Associate Professor at the department of Materials Science and Engineering in UNIST.
