

NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

Prof. Hu Young Jeong

Graduate School of Semiconductor Materials and
Devices Engineering, UNIST,
Republic of Korea

Hu Young Jeong is currently an Associate Professor in Graduate School of Semiconductor Materials and Devices Engineering at Ulsan National Institute of Science and Technology (UNIST), South Korea. He received his M.S. and Ph.D. degrees in Materials Science and Engineering Korea Advanced Institute of Science and Technology (KAIST), South Korea in 2006 and 2010. His research interests focus on atomic-scale interface analysis of various semiconductor materials including metal oxides and 2D materials such as transition metal dichalcogenides using transmission electron microscope. He was selected as “Highly Cited Researchers (HCRs) in 2022 & 2023” by Clarivate Plc.
