

NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

Dr. Mingmin Yang

Hefei National Laboratory, Anhui, China

Mingmin Yang obtained his bachelor's degree in material science from the University of Technology of Wuhan in 2011 and his Ph.D. in physics from the University of Warwick (UK) in 2018. He then conducted postdoctoral research at the University of Warwick, UK and Center for Emergent Matter Science, RIEKN, Japan. After working as an assistant professor at the Department of Physics of the University of Warwick, he joined the Hefei National Laboratory as a research scientist and group leader. His research focus on the study of efficient energy transduction processes in multifunctional nano materials and of devices for quantum technology, information communications and green-energy applications.
