

NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

Assistant Professor. Taeyong Kim

Mechanical Engineering at Seoul National University

Taeyong Kim is an assistant professor of Mechanical Engineering at Seoul National University. He obtained B.S. in Electrical and Electronic Engineering from Yonsei University in 2013, and Ph.D. in Applied Physics from Caltech in 2020. Prior to joining the Seoul National University in 2022, he was a postdoctoral scholar in Mechanical Engineering at University of California, Santa Barbara. He is a recipient of 2023 Korean Society for precision engineering young researcher award. His current research focus includes nano-scale thermal transport, ultrafast electron microscopy and optical spectroscopy.
